OBJECTIVE

Final-year Computer Science student with strong experience developing and maintaining web applications using Java, Python, JavaScript, jQuery, HTML, CSS, MySQL, and PHP. Writes clean, efficient, and maintainable code with a focus on optimal performance, scalability, and user experience. Skilled in testing, debugging, and optimizing web applications. Stays updated on latest technologies, contributes continuous improvement ideas, and collaborates effectively in fast-paced, innovative development teams.

SKILLS

Web Development: Java, Spring MVC, Hibernate ,Python, JavaScript, jQuery, HTML5, CSS3, Responsive Design, Web Applications
Frontend: React.js, JavaScript, jQuery, HTML5, CSS3, Tailwind CSS, UI Enhancement, User Experience
Backend & Databases: Python (Flask/FastAPI), Java, PHP, MySQL, PostgreSQL, SQLite, REST APIs, SOAP
Code Quality: Clean & Efficient Code, Maintainable Code, Testing, Debugging, Performance Optimization
Scalability: Web Application Optimization, Maximum Speed & Scalability, API Integration, Microservices
Dev Tools: Git/GitHub, Docker, Postman, Linux, VS Code, Agile/Scrum, SDLC, Technical Documentation

EXPERIENCE

SDE Intern — Edunet Foundation Jan 2025 – Jun 2025 | Remote

- Collaborated with the development team to design and implement new features for web applications using Python and Java.
- Wrote clean, efficient, and maintainable code ensuring optimal performance across web application modules.
- Conducted testing and debugging to identify and fix bugs; improved software stability and reduced defects by 30%.
- Assisted in optimizing web applications for maximum speed and scalability using REST APIs and database query tuning.
- Contributed continuous improvement ideas; stayed updated on latest technologies and trends in web development.
- Worked on enhancing user experience and functionality; collaborated using Git/GitHub in an Agile/Scrum environment.

PROJECTS

CareerHub | Java, Python, Nodejs, JavaScript, jQuery, HTML5, CSS3, MySQL, REST APIs, Flask Live • GitHub

- Developed and maintained a full-stack web application using Java, Python, JavaScript, jQuery, HTML, CSS, and MySQL.
- Wrote clean, efficient, maintainable code for backend services and validated 20+ REST API flows for data accuracy.
- Conducted testing and debugging across all modules; optimized web application for maximum speed and scalability.
- Contributed feature ideas and continuous improvements to enhance user experience – engagement improved by 60%.

NutriScan | Python, Java, JavaScript, jQuery, HTML5, CSS3, MySQL, REST APIs, Performance Optimization Live • GitHub

- Built and maintained a web application using Python, Java, JavaScript, jQuery, HTML5, CSS3, and MySQL database.
- Optimized web application for maximum speed and scalability; supports 200+ concurrent users with stable performance.
- Tested and debugged issues across the full stack; wrote clean, efficient code following web development best practices.
- Enhanced user experience and functionality through continuous improvement; worked on latest technologies and trends.

EDUCATION

B.Tech – Computer Science — Maharishi Markandeshwar (Deemed to be University) 2022 – 2026 | Ambala, India
CGPA: 8/10 • Final Year • Available Immediately • Part-Time Remote Ready

CERTIFICATIONS & ACHIEVEMENTS

- micro1 AI Interview Certified – Software Developer Intern | Python Essentials 1 – Cisco Networking Academy
- Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure – LinkedIn
- Python (Intermediate) – HackerRank | JavaScript (Intermediate) – HackerRank | SQL (Intermediate) – HackerRank
- Business Email – HP LIFE | Responsive Web Design – MindLuster | Android App Development – Simplilearn
- 5-Star Algorithms & Python – HackerRank | Weekly Coding Challenge 17 – Unstop
- Hackathon Participant – Smart India Hackathon (SIH), TATA Imagination Challenge, HacksIllite, Alpha Intern Hackathon.
